

PRICE MOVEMENT

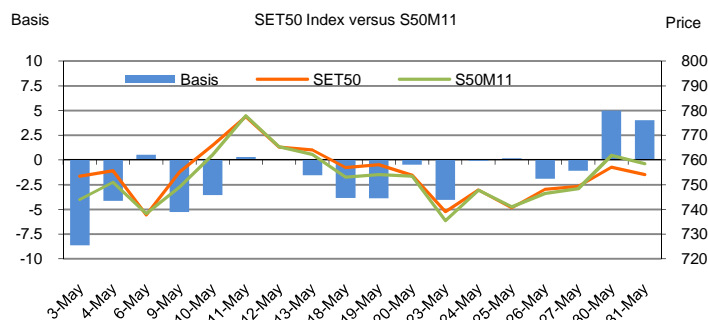

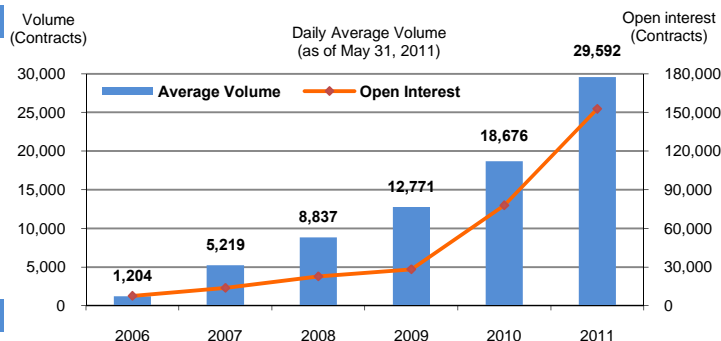

SET50 Index shed about 16 points, or 2.16% from the previous month closing at 754.08 points. Investors still remain cautious on unclear local politics after a midyear election, a stronger US dollar against the Euro on the European debt crisis, lower global crude prices and an uptrend in policy interest rates by Asian central banks.

LBMA Gold AM fixing hit an all time high at \$1546 per troy ounce on May 3. TFEX Gold Futures volume also hit a new high at 27,006 contracts on May 6.
